

For the year ended 31 March 2023.

This update was first made publicly available on 30 June 2023.

What is the purpose of this update?

This document tells you how the Short Term Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. New Zealand Post Trustees Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests solely in income assets (e.g. term deposits). Its objective is to achieve returns of 0.25% above inflation over a 3-year period while keeping the probability of a negative return over a 12-month period (calculated each quarter) at 1 year in 20.

Total value of the fund	\$27,056,495
Number of investors in the fund	471
Date the fund started	1 April 2003

What are the risks of investing?

Risk indicator for the Short Term Fund

< Lower risk
Potentially lower returns

Higher risk >
Potentially higher returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the statement of investment policy and objectives available at www.superplan.co.nz and on the register at www.disclose-register.companiesoffice.govt.nz for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax at 28%)	1.43%	1.58%
Annual return (after deductions for charges but before tax)	2.00%	2.19%
Market index annual return (reflects no deduction for charges and tax)	1.50%	3.20%

The benchmark for the Short Term Fund is the S&P/NZX Bank Bills 90-Day Index. This index provides a measure of the cumulative increase in the market value of a portfolio of bank bills based on a daily rollover and purchase of a new bank bill of 90-day maturity.

Further information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March for the last 10 years. The last bar shows the average annual return for the last 10 years up to 31 March 2023.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Short Term Fund are charged fund charges. In the year to 31 March 2023, these were:

	% of net asset value
Total fund charges	0.61%
Which are made up of:	
Total management and administration charges	0.61%
Including:	
Manager's basic fee	0%
Other management and administration charges	0.61%
Total performance-based fees	0%
Dollar amount per investor or description of how charge is calculated	
Other charges	N/A

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Mary had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Mary received a return **after fund charges** were deducted of \$219 (that is 2.19% of her initial \$10,000). Mary also paid \$0 in other charges. This gives Mary a total return **after tax** of \$158 for the year.

This example is based on a hypothetical investor paying tax at the highest prescribed investor rate that applied throughout the period.

What does the fund invest in?

This shows the types of assets that the fund invests in.

Top 10 investments

	Asset name	% of fund assets	Type	Country	Credit rating
1	Term deposits – BNZ	31.13%	Cash and cash equivalents	NZ	AA-
2	Term deposits – ASB	24.05%	Cash and cash equivalents	NZ	AA-
3	Term deposits – RaboBank	17.17%	Cash and cash equivalents	NZ	A
4	Term deposits – Westpac	8.54%	Cash and cash equivalents	NZ	AA-
5	Term deposits – Kiwibank	8.27%	Cash and cash equivalents	NZ	A+
